International
Conference on Justice
المؤتمـــر العـــدلي الدولـــي

VISION 2030
المملكة العربية السعودية
KINGDOM OF SAUDI ARABIA

Facilitating Access to Justice Through Digital

Innovation

+4000 participants

+50 international speakers, experts and participants

+15 sessions

Overview

The world is witnessing major developments in technology that are changing the processes of judicial systems leading to the uptake of digitalization tools that support the administration of justice. In line with global trends, the Saudi Ministry of Justice is organizing the International Conference on Justice to provide a platform for international dialogue, encouraging the exchange of knowledge and best practices between ministries of justice, global partners, thought leaders and industry experts. The Conference aims to develop expertise and promote the development, adoption and expansion of digital transformation within the field of justice.

Enhance digital enablers
facilitating access to justice

Consolidate safeguards in
digital judicial applications

**Conference
Goals**

Exchange knowledge,
expertise, and best practices

Enhance international
relations and partnerships

Highlight the latest international
trends in judicial sectors

Communicative
Messages

Under the Saudi Vision 2030, the Kingdom is working on elevating all sectors to create tangible and positive impact for all members of society.

Saudi Vision 2030 has paved the way for digital infrastructure that streamlines and facilitates services for everyone.

The Saudi judicial sector is witnessing unprecedented transformation.

The Kingdom has developed systems of specialized legislation and enhanced the efficiency of the legislative environment.

The Kingdom has improved the quality of life through the judicial sector by fulfilling client needs and providing services in an easy and effective manner.

Saudi judicial sector has undergone 100% digital transformation within judicial, notarial, enforcement and conciliation services.

The Saudi Ministry of Justice provides over 150 e-services related to courts, notarization, enforcement and conciliation; among others.

The Saudi justice sector has witnessed notable transformation that contributed to citizens' quality of life.

The successful transformation of the Saudi justice sector has contributed to making the experience a leading model in digital transformation at the international level.
